SALES INCOME - Associate Income from Sales of AFPP Life-Time Memberships and the Business Opportunity Associates Generate Tags and Do Not Make Sales.

If an associate's Tags generate only one combined Membership and Business Opportunity sale per day on a 20 day month, the Associate's income would be \$4,000 per month.

This does not include perpetual income when families actually use the service.

Clarification: Associates do not make sales. Sales are generated by Tags. Associates are not responsible for sales. However, the more Tags the more potential sales.
