Perpetual Income - What is Your Goal? SECRET TO SUCCESS - DON'T QUIT.

Perpetual income chart includes potential income from tags only and does not include Membership or Business Opportunity sales. A Tag is an Associate simply getting permission from someone for Funeral Negotiators to send them information about our wonderful service. A Tag is generated when an Associate sends in a person's name, mailing address, and email address to the AFPP database. Tags are permanently assigned to the Tagging Associate for the rest of the Associate's life and the Associate's spouse's life. Associates receive 10% of Funeral Negotiators' collected fee every time their Tag uses our service for the rest of their life. If a Tag later purchases a Membership or Business Opportunity, the original Tagging Associate gets the full commission even years later.

	Number tags per day 5 Min per tag	Tags per month 20 day month	Monthly Income after first year *	Annual Income End Year 1 *	Annual Income End Year 2 *	Annual Income End Year 3 *	Annual Income End Year 4 *	Annual Income End Year 5 *	Annual Income End Year 6 *	Annual Income End Year 7 *	Annual Income End Year 8 *	Annual Income End Year 9 *	Annual Income End Year 10 *	Annual Income End Year 20 *

* Chart assumes one in twenty tags will use the service in the first year, then one in twenty of the original tags will use the service in the following years.

Note on average every ten years a family will lose a loved one somewhere in their family based upon a 20 year generational model.

Chart assumes no membership or business opportunity purchases by Tags. If Tag later purchases a membership the Associate gets the \$150 commission for membership sale and \$200 commission for a Membership / Business Opportunity Sale.

How much effort was exerted? You spent 5 minutes initiating each tag. The rest is automatic.
